

AMENDED IN ASSEMBLY JULY 7, 2011

AMENDED IN SENATE MARCH 24, 2011

SENATE BILL

No. 885

Introduced by Senator Simitian

February 18, 2011

An act to amend Sections 10801 and 10807 of the Education Code, relating to public education accountability.

LEGISLATIVE COUNSEL'S DIGEST

SB 885, as amended, Simitian. Public education accountability: longitudinal education *data* system.

Existing law establishes a system of public education in this state. This system includes public elementary and secondary schools, which provide instruction to pupils from preschool through grade 12, as well as the institutions that comprise the 3 segments of higher education, which are the California Community Colleges, the California State University, and the University of California.

Existing law expresses the intent of the Legislature that the design and implementation of a high-quality, comprehensive, and longitudinal education data system for California should meet specified goals. Existing law authorizes the State Department of Education, the University of California, the California State University, the Chancellor of the California Community Colleges, the Commission on Teacher Credentialing, the Employment Development Department, and the California School Information Services to enter into interagency agreements to facilitate the implementation of a comprehensive longitudinal education data system for California, the transfer of data from one educational segment to another, and the transfer of workforce data to the educational segments.

This bill would amend the expression of intent of the Legislature referenced above to state that the design and implementation of a high-quality, comprehensive, and longitudinal preschool through higher education (P-20) statewide data system should meet specified goals. The bill would also authorize the ~~California Postsecondary Education Commission~~ and the State Board of Education, in addition to the entities referenced above, to enter into a joint powers agreement, rather than interagency agreements, to facilitate the implementation of the comprehensive longitudinal preschool through higher education (P-20) statewide data system referenced by the bill.

Vote: majority. Appropriation: no. Fiscal committee: yes.
State-mandated local program: no.
